

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

St. Albans has a new city directory.

Capitol Guards, Co. F, 2d Vermont regiment reunion at city hall, Montpelier, at 1 p. m. July 12.

The daily average for patients at the Vermont sanatorium at Pittsford during June was between 28 and 29.

George H. Day, a veteran of the Civil war, died Friday at the home of his son in Panton at the age of 80.

During the severe electrical storm that visited St. Albans Friday night a cow belonging to Frank Wilcox was struck and killed.

The gross receipts of the Brattleboro postoffice for the fiscal year ended June 30, were \$64,111.13, an increase of \$6,515.40 over the preceding year.

Bert Akley, while haying for John Nesbit of West Brattleboro, was thrown from the wagon he was driving when a bee stung one of the yoke of oxen attached thereto and they ran away. Akley had one shoulder fractured.

Seth Allen of East Jamaica was almost instantly killed when he fell from a roof he was shingling about 6:30 Thursday evening. Friday night his sister, Miss Lucy Allen, died at her home from the shock incident to news of her brother's death.

The secretary of state has revoked the automobile license of Harry Boyd of Brattleboro because of the accident which happened in a bridge in that town last Monday, when Mrs. William M. Randall was badly injured. She is still in a critical condition at the hospital.

Friday afternoon, the Center Congregational church of Brattleboro, continuing its 100th anniversary celebration, held a centennial communion service at 4 o'clock. There were interesting remarks by all four living former pastors and by one who went into the ministry from this church.

Dr. Oswald Mitivier of Holyoke, Mass., who has a summer home in Jamaica, was arrested there Friday by Sheriff C. E. Mann on a warrant sworn out by John C. Crosby of Holyoke, charging Dr. Mitivier, who is a dentist, with alienating the affections of Mrs. Crosby. The sum of \$10,000 is named as compensation by the plaintiff. Dr. Mitivier is being held in Brattleboro pending arrangements for bail.

George Angier of Bristol has a sow that recently gave birth to a litter of four pigs, one of which was a deerskin freak. The head, shoulders and forward legs were perfect, but the hind legs were small and had web feet, and when walking the hind parts had the gait of a duck. The creature lived a few days.

Orleans County Farmers Pleased.

In 1915, 11 top-dressing demonstrations were made by Orleans county farmers in co-operation with the county agricultural agent. In some cases, the fertilized plot yielded four tons to the acre, while the unfertilized portion from the same field yielded but two tons per acre. The extra hay cost the farmers from \$1.80 to \$5.00 per ton. Nitrate of soda, acid phosphate, muriate of potash and Peruvian guano were used in the mixture, which cost the farmers \$36.62 per ton. The amount applied varied from 200 to 300 pounds per acre.

Many farmers saw the results and were convinced. Much more top dressing than usual was done in Orleans county this year, and a large per cent. of the chemicals ordered through the Orleans County Farmers' exchange were secured for this purpose.

Not all of the farmers knew of the results in 1915, and not all farmers could be convinced in one year, so 13 top-dressing demonstrations are being conducted this year under supervision of the county agent. Mr. Deuel expects them to be some of his very best demonstrations and feels that every farmer should see at least one. They will be given in the following towns: Albany, Ira, Barton, Newport, Craftsburg, Brownston, Greensboro and Glover.

On account of the unusual fertilizer situation this year, a mixture differing a little from that of last year was used, the cost the farmers \$47.50 per ton. The best way to know how much good is derived from county agent work is to see some of the demonstrations and see how many farmers are putting the information to a practical test.

READY FOR MURDER CASES.

To Be Taken Up in Orange County Court This Week.

Chelsea, July 10.—It was expected that the murder cases would be taken up at the resumption of the session of Orange county court this afternoon and in anticipation of that a venire was issued for 25 additional jurors to appear.

At the opening of the fourth week of the term on Wednesday afternoon, July 5, a hearing on a petition was heard in the case of Florine Rogers vs. John W. Bigelow.

The case was tried by jury at the June term of 1915, which resulted in a verdict and judgment for the plaintiff to recover some \$800 from the defendant for trespass. The evidence was such that it satisfied the jury that the defendant struck the plaintiff (a woman) with a horse-whip with intent to injure her. From the judgment of the county court the defendant took an appeal to the supreme court, where a trial was held on the 10th of last March, where he was again found guilty and the judgment of the lower court and execution issued; and the defendant upon failing to satisfy the execution was lodged in jail last March, where he has since remained, and the petition at this time was to the effect that the defendant might be allowed the liberties of the jail yard or that he be permitted to take the poor debtor's oath. Stanley C. Wilson appeared for the petitioner and Batchelder, Thompson & Batchelder appeared on the other side, representing the plaintiff in the original case. Judgment has not been rendered at this time.

The following divorce cases were disposed of during the week, viz: Rose Conant vs. Henry Conant. Bill granted for refusal to support and intolerable severity. R. M. Harvey of Montpelier appeared for the libellant.

Fred T. Avery vs. Lydia A. Avery, parties from Stratford. Bill granted for desertion. David S. Conant appeared for libellant.

Mary A. Sanborn vs. Wallace H. Sanborn, parties from Chelsea. Bill granted for intolerable severity and libellant granted right to resume her former name of Judd. Stanley C. Wilson for libellant. Rose Schioldt vs. George H. L. Lutz, parties from Randolph. Bill granted for willful desertion and custody of minor child decreed to libellant. John C. Sherburne of Randolph for libellant.

Florence M. Burnell vs. Ivo L. Burnell, parties from Bradford. Bill granted for intolerable severity and custody of minor children decreed to libellant. David S. Conant of Bradford for libellant.

The divorce case of Anna Hauser Thelgen vs. John Thelgen of Tunbridge, which was tried at the December term, 1915, and which was entered with the court, has recently been decided and a bill of divorce granted to Mrs. Thelgen for intolerable severity. Wallace Batchelder of Bethel appeared for the libellant and John N. Harvey of Barre and W. H. Sprague of Chelsea appeared for the libellee.

The case of John L. McLean vs. Malcolm McLean and wife occupied the attention of the court Friday and Saturday and judgment will likely be entered before the end of the term.

JULY CROP REPORT.

Hay and Pasture are High Above Year Average.

Washington, D. C., July 10.—The summary of the July crop report for Vermont and New Hampshire is as follows:

New Hampshire.

Corn—July 1 forecast, 636,000 bushels; production last year, final estimate, 990,000 bushels.

Oats—July 1 forecast, 442,000 bushels; production last year, final estimate, 456,000 bushels.

Potatoes—July 1 forecast, 1,700,000 bushels; production last year, final estimate, 1,520,000 bushels.

Hay—July 1 condition 110, compared with the eight year average of 82.

Pasture—July 1 condition 109, compared with the ten-year average of 88.

Apples—July 1 forecast, 505,000 barrels; production last year, final estimate, 353,000 barrels.

Prices.—The first price given below is the average on July 1 this year, and the second the average on July 1 last year. Corn, 88 and 86 cents per bushel. Oats, 61 and 72. Potatoes, 135 and 35. Hay, \$18.70 and \$20.00 per ton. Eggs, 29 and 25 cents per dozen.

Vermont.

Corn—July 1 forecast, 1,340,000 bushels; production last year, final estimate, 2,256,000 bushels.

All wheat—July 1 forecast, 25,000 bushels; production last year, final estimate, 30,000 bushels.

Oats—July 1 forecast, 2,890,000 bushels; production last year, final estimate, 3,483,000 bushels.

Barley—July 1 forecast, 323,000 bushels; production last year, final estimate, 420,000 bushels.

Potatoes—July 1 forecast, 2,700,000 bushels; production last year, final estimate, 2,592,000 bushels.

Hay—July 1 condition 110, compared with the eight-year average of 84.

Pasture—July 1 condition 109, compared with the ten-year average of 90.

Apples—July 1 forecast, 804,000 barrels; production last year, final estimate, 324,000 barrels.

Prices.—The first price given below is the average on July 1 this year, and the second the average on July 1 last year. Wheat, 120 and 125 cents per bushel. Corn, 89 and 81. Oats, 63 and 67. Potatoes, 123 and 41. Hay, \$15.60 and \$16.50 per ton. Eggs, 24 and 21 cents per dozen.

Reporter—Why are you sore at Jones of the Star?

Banker—I told him to buy Sunshine Baked and made him agree not to tell any one, and he hasn't.—The Lamb.

Brought About Cures.

Church—So your boy became a doctor after he left college?

Gotham—Oh, yes.

"Where is he now?"

"Living out in the country."

"Doing well?"

"I guess so. He wrote last week that he had cured some hams and some hay."

—Yonkers Statesman.

WASHINGTON COUNTY FARM BUREAU ASSOCIATION.

Week Ending July 8, 1916.

Farmers visited 18
Letters written 18
Persons calling 9
Telephone calls 10
Meetings, number 2
Attendance 55
Miles traveled 189

Thomas Bradlee, state extension leader, went Monday with the county agent to the town of Cabot, where a meeting of the farmers was held and the problem of organization discussed. A Cabot farmers' club was organized, with the following officers: Pres. O. Dow; vice-president, Howard Carpenter; secretary, Angus Smith; executive committee, C. A. Laird, Aaron Bolton and Mr. Gould. As soon as this club gets fairly under way, it plans to work through committees in studying the particular agricultural problems that seem to be most important to the community. Such a club offers excellent opportunity for the farmers to get together and take the most advantage of the work of the county farm bureau and the county agent.

The joint committee meeting of the Washington County Farmers' bureau, the Orange County Farmers' association with the Barre and Montpelier Boards of Trade was held this week, and definite plans made for holding a joint picnic and field day with Orange county at some time in the latter part of August. The date was left to the committee. The place decided upon as being the most convenient for all concerned was the Granite City trotting park at Barre. This was made available by the courtesy of the Barre Board of Trade. Committee on speakers: W. C. Colton of Montpelier, F. C. Howland of Barre, and County Agents Loveland and Abbott; committee on entertainment, sports, etc.; Barre Board of Trade or its committee; committee on entertainment for the women, Barre Women's club; committee on stock judging and stock exhibition, J. A. Partridge of Washington, Roy Smith of Barre, and H. J. Dodge of Berlin. The object of such a picnic is to promote the good fellowship of the people in the two counties and to have a meeting which will be primarily agricultural and of educational value to the farmers. The principal features will be the stock judging and the speaking.

County Agent Hankinson, Mercer county, N. J., has carried out some home management demonstrations to show a more profitable method of keeping hives than by close penning, which has been the usual practice in that locality. The method of feeding on pasture was demonstrated and green crops were emphasized. The following crops were used successfully: Rye, oats, peas, bluegrass, clover, soybeans, rape and sweet clover. Different grain rations were used as a supplementing feed, and the complete cost was kept. The demonstrations were witnessed by a large number of farmers and carried their point, as the farmers demonstrated made money. Talk with the county agent about this and let us have some of this kind of work in Washington county.

Yours very truly,

F. H. Abbott,

County Agricultural Agent.

BIG YEAR FOR MINES.

Geological Survey's Mid-Year Review Shows General Prosperity.

The accomplishment of the mining industry in the six-month period just completed warrants the forecast that 1916 is to be a record-breaking year. With this statement the director of the United States geological survey sums up his official mid-year review of the mineral industry as reported to him by the government geologists and statisticians covering the different subjects. "Active demands and good prices have furnished the mine operators with full opportunity for success in working developed properties, and this in turn has given added incentive and available funds for exploration, prospecting, and experimentation with new processes. The mining man is having his innings. Summarizing the special reports which are now being made public, Director Smith continues his review: The returns for six months furnish a basis for the belief that 1916 will set up a new record for the soft-coal mines. Every coal-mining state is sharing in this prosperity and of course this demand for coal is to be traced back to the increased business of the railroads and of the steel and other large industries.

Drilling activity throughout the oil-producing states has brought about a gratifying increase in production of crude oil that promises to make 1916 a record year for marketed petroleum. Already production and consumption are reported by the survey's specialist as essentially in balance east of the Rocky mountains, with a tendency to lower prices.

The Portland cement industry has had a busy six months and the manufacturers are optimistic. It is predicted that both production and shipments of cement this year will show a gain over last year, if indeed it does not establish a new record for cement.

Among the metals copper is continuing the steady increase in production which began early last year, and the forecast for 1916 indicates not only the largest output ever known but also the largest profits.

Shipments of iron ore from Lake Superior points for five months of 1916 exceeded by more than 80 per cent. those

for the same months in 1915, and the indications for the year are favorable for a new high record on iron-ore production and of pig iron as well. Higher prices with a steady demand are stimulating the mining of manganese, with the result that this year's output of ore is expected to surpass the large production of last year.

The lead and zinc mines are producing ore at a rate even exceeding that of last year and the prevailing prices have made possible the working of large quantities of low-grade ore.

Most precious-metal mines are operating at full capacity. The gold production will probably fall below the high yield of last year, but silver, the one metal last to benefit by the general domestic prosperity, is expected this year to break all previous records.

In quicksilver the outlook is for a continuation of the output of 1915, which was the largest for several years. Thus far in 1916 the average price has greatly exceeded the 1915 prices, and although the reaction in prices has come, conditions are favorable for steady and profitable operation of the quicksilver mines, some of which are newly opened.

The reports from the survey's western offices are all optimistic. In Arizona mines and smelters are working at high pressure, and the production of metals already shows an increase that promises to make the value of the output nearly double that of last year. Arizona will maintain first place as a copper producer. New Mexico is continuing its rapid progress as a metal mining state, with increases in its output of lead, copper, zinc, gold and silver. The mines of Colorado in the six months just past have shown some changes in output as compared with last year, an increase of 30 per cent. in copper is indicated, together with small gains in lead and zinc, a 15 per cent. decrease in gold, and little change in silver. This output, however, represents a large gain in value of mine production. Mining has also been stimulated in Montana, and the forecast indicates an increase of 60 per cent. in the value of the mine product over that of last year. Here also record outputs may be expected for 1916. Idaho mines are increasing their shipments in all the metals, with higher wages and larger dividends as the result of better prices.

Utah is experiencing an ore production in excess of smaller capacity. The value of the 1916 output of copper is expected to be double that of last year. Throughout Nevada the old term "boom" best expresses the present mining revival. Old mines are being reopened, and regular producers are working at full capacity. The chief gains in production will be in copper, lead, and zinc. The increased activity in the mining industry of California is finding expression largely in the reopening of mines that have been long idle and the opening of new mines for chrome, tungsten, manganese, antimony, and magnesia. Rail shipments of these ores to the East being made possible by prevailing high prices. Washington is another state which shows increased production, the mining industry there being in better condition than for several years past. Alaska also is benefiting by the increased activity of its mines. Copper mining is showing great advances, and the output of both copper and gold promises to exceed that of last year.

ESTATE OF ADDIE C. THOM

State of Vermont, District of Washington, ss. The Honorable Probate Court for the District of Washington:

To all persons interested in the estate of Addie C. Thom, late of said Barre, in said district, deceased, GREETING:

At a probate court, holden at Montpelier within and for said district, on the 8th day of July, 1916, an instrument purporting to be the last will and testament of Addie C. Thom, late of the city of Barre, in said district, deceased, was presented to the court aforesaid, for probate.

And it is ordered by said court that the 27th day of July, 1916, at the probate office in said Montpelier, be assigned for proving said instrument; and that notice thereof be given to all persons concerned, by publishing this order in some newspaper circulating in the Barre Daily Times, a newspaper circulating in this vicinity, in said district, previous to the time aforesaid.

THEREFORE, you a s hereby notified to appear before said court, at the time and place aforesaid, and contest the probate of said will, if you have cause.

Given under my hand at Montpelier, in said district, this 8th day of July 1916.

FRANK J. MARTIN, Judge.

COMMISSIONERS' NOTICE

The undersigned, having been appointed by the honorable probate court for the district of Washington, COMMISSIONERS, to receive, examine, and adjust the claims and demands of all persons against the estate of Cornelia C. Hawse, late of Holyoke, Mass., deceased, and all claims exhibited in offset thereto, hereby give notice that we will meet for the purpose aforesaid, at the store of the Tilden Shoe Co., in the city of Barre, in said district, on the 1st day of August and 15th day of December next, from 8 o'clock a. m. until 3 o'clock p. m. on each of said days, and that creditors to present their claims to us for examination and allowance.

Detained, and certify the probate of said will, if you have cause.

ARTHUR C. TILDEN,
WILLIAM W. MEISSER,
Commissioners.
